Swine Flu

We are very aware that there is a possibility that the current national situation may change with Swine Flu. Medway Carers Centre staff will remain updated and will endeavour to keep carers and their families/cared for informed of the local situation should anything arise that would affect the health of our carers.

We would ask people who use the centre to **remain away from the centre** if you suspect that

- You have had recent contact with an infected person
- You have symptoms
- You have been diagnosed with the flu

We ask that you notify us **immediately** if there is a possibility that you have had contact with someone who may have or has been diagnosed with swine flu and that there is a possibility that you have had contact with other carers, staff or volunteers who use the centre or who have visited you at home .

We would like to thank you for your co-operation in this matter.

Bobbie Taiano
Manager
